Subject: Full Stack Developer - TGS Application

Respected Hiring Team at TechnoGenix Solutions,

I am excited to apply for the **Mid-Level Full Stack Developer** position at **TechnoGenix Solutions (TGS)**. With 2+ years of hands-on experience in JavaScript/TypeScript-based technologies, including **React.js**, **Next.js**, **Node.js**, **Express.js**, and databases like **MongoDB** and **PostgreSQL**, I am confident that I can contribute effectively to your team and deliver impactful, scalable web applications.

In my current role at **NexStack**, I have worked on diverse full stack projects, building RESTful and GraphQL APIs using **Express.js** and **Strapi**, and developing dynamic frontend with **React.js**, **Next.js**, and **Expo Native**. I'm also familiar with **Nest.js**, **GraphQL**, and have experience with modern development tools like Prisma, Zustand, and Git.

I am passionate about clean code, optimized performance, and collaborative development. The opportunity to join a global, forward-thinking team like TGS—where innovation and work-life balance are valued—aligns perfectly with my career goals.

I would welcome the opportunity to further discuss how my skills and experience can contribute to the success of TechnoGenix Solutions. Thank you for considering my application.

Sincerely,
Mahdi Hasan
